

- ['23.08.07~08.11] 주간에는 의약품 식별등록 총 42건으로 신규 등록 34건, 변경 등록 8건 진행되었음.
- **효능군별**로는 당뇨병용제(396) 제품이 26건으로 최다 등록·변경되었으며, **업체별**로 동화약품이 8건으로 최다 건수를 등록·변경하였음
- **신규 등록**의 경우, 당뇨병용제(396) 제품이 26건으로 최다 등록되었으며, **변경 등록**의 경우, 혈압강하제(214) 제품이 3건으로 최다 변경되었음.

### 식별등록 (34건)

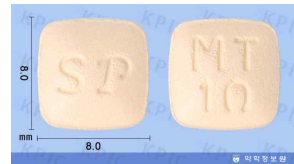

|   | 제품/회사명/성분명                                                                                                         | 식별표시                                                                                |   | 제품/회사명/성분명                                                                                                                                                       | 식별표시                                                                                  |   | 제품/회사명/성분명                                                                                                               | 식별표시                                                                                  |
